

AUTOMATION SERVICES

We are an industry leader in the design, development, implementation, and ongoing management of responsive automation systems. We collaborate with customers to jointly develop or enhance existing industrial automation applications.

FULL SUITE OF SERVICES

- Integrated SCADA, PLC, Allen Bradley, FactoryTalk from Rockwell Automation, DCS, HMI & RTU solutions
- Process control, SCADA, historian & ERP system integration
- Process optimization, control system maintenance & modernization, batch & discrete applications
- Compliant with all languages

MAINTENANCE & SUPPORT

- Team training and on-site support
- site audits & assessments
- Consulting services

PROJECT MANAGEMENT

Our project management is an integrated & essential part of our service offering.

While we use a host of vendors, and pride ourselves on our vendor neutrality, we are proud to be one of very few automation businesses with the **Silver Integrator Status** designation from Rockwell Automation.
